

Learning the Ropes

Level 3

Churchyard Bob (Flying Dutchman)

Purpose

Treble passes through the bells in the order 2-3-4-5.
This makes **learning to count places very easy** and can be used for a learner having difficulty acquiring this skill.

It is another way to practise Plain Hunt.

It adds variety and provides a little more of a challenge than normal Plain Hunt especially for those on the back three bells when few experienced ringers turn up on practice night.

It is good for developing covering skills, as the bells come to the back in a different order to that in Plain Hunt.

Notes

Churchyard Bob is Plain Hunt with a Grandsire start and goes on forever without coming round.

- The second plain hunts.
- The 3, 4 and 5 ring with Grandsire starts and then just continue to plain hunt.

What next?

Treble to Plain Bob Doubles or Grandsire Doubles.
